H-Series Narrow-Angle Diffuser Film

Precision micro-structured optical diffuser film designed for narrow-angle light diffusion while maintaining high central illuminance and a clean illumination boundary.

Key Features
- Smooth and controlled light distribution
- Maintains high central illuminance
- Clear cutoff at the edge of the illuminated area
- Narrow diffusion angles from approximately 1° to 15°

Typical Applications
- Spotlights
- Stage lighting
- Museum and exhibition lighting
- Other precision illumination applications

Optical Specifications

Product Model	Diffusion Angle (FWHM, Collimated Light)	Transmittance (%) (ASTM)	Haze (%) (ASTM)
H-xxxx-R01	1° ± 1°	90.3	3.1
H-xxxx-R03	2.9° ± 1°	91.3	4.9
H-xxxx-R04	3.7° ± 1°	90.4	12.9
H-xxxx-R05	7° ± 1.5°	92.8	30.1
H-xxxx-R10	8.8° ± 1.5°	90.1	38.9
H-xxxx-R15	15° ± 1.5°	-	-
